ABOUT ME

Enthusiastic and detail-oriented web developer with a strong foundation in responsive and static website design. Skilled in HTML, CSS, Bootstrap, and Python, with a focus on creating clean, user-friendly interfaces and efficient code. Eager to leverage my technical skills in a challenging role, contributing to innovative projects and continuous learning.

EDUCATION

BTech in Computer Science Engineering (CSE) — St. Theresa Avanthi Institute of Engineering and Technology (Currently pursuing)

Intermediate — Sri Chaitanya Jnr college– 65% (Completed in 2022)

10th Grade — Pragathi English Medium High School   82% (completed in 2020)

EXPERIENCE

Built a Smart Travel Planner using HTML, CSS, and Python with a responsive design. Developed a personal portfolio site with Bootstrap to showcase skills and projects. Created a static business website focused on clean design, optimized performance, and cross-device compatibility.
